

Harbor Clinic Intake Packet

Image-only PDF source for OCR testing

Packet ID: HC-2047-06

Date received: 2026-06-03

Page 1: Cover Sheet

Name

Date of birth

Primary phone

Preferred language

Visit reason:

☒ New patient

☐ Renewal

☐ Records request

☐ Billing question

Referral source:

☐ Employer

☒ Community clinic

☐ School

☐ Other

Staff note

The applicant arrived with a folded paper referral and two copied identity documents. The copy of the back side of the card is faint but readable. The handwritten phone number should be checked against the typed appointment record before release.

Attachment checklist

Photo ID front	☒	Photo ID back	☒
Referral letter	☒	Insurance card	☐
Consent form	☐	Address proof	☒

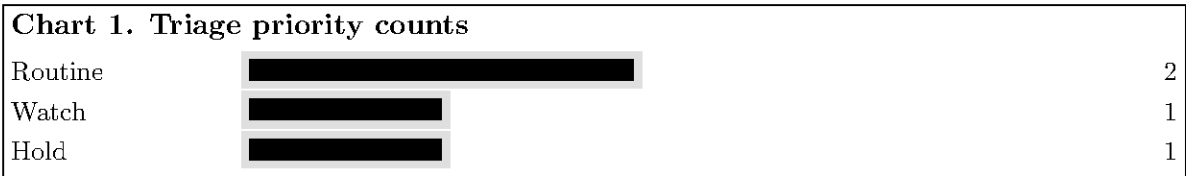

Small print notice

This synthetic packet contains blank lines, checkboxes, boxed notes, and low-position footer text. The final PDF should be rasterized so that no selectable text layer remains. Ground truth should preserve the visible words, checkbox states, and table values.

Page 2: Triage Log

Table 1. Vitals and triage observations

Time	Staff	Priority	Observation
08:14	R. Patel	Routine	Packet opened; cover sheet complete; re- ferral attached.
08:22	M. Chen	Watch	Address proof copied at low contrast; re- quest rescan if rejected.
08:39	R. Patel	Routine	Language preference confirmed by phone.
09:05	L. Ortiz	Hold	Insurance card missing; applicant will bring card at appointment.

The triage chart is deliberately simple. It is included to test whether OCR orchestration retains numeric chart labels when the PDF has only page images. A layout system should not assume that simple bars are decorative.

Handwritten-style note: call back after 2 p.m.; voicemail okay; ask for updated insurance card.

Page 3: Release Review

Reviewer: A. Morris

Review date: 2026-06-04

Release decision: ☐ Release now ☒ Hold for missing card ☐ Return packet

Table 2. Field verification

Field	Status	Comment
Name	Verified	Matches referral and identity page.
Date of birth	Verified	Typed value agrees with copied card.
Phone	Needs check	Handwritten digit may be 3 or 8.
Insurance	Missing	Applicant says card will be available at appointment.
Address	Verified	Utility bill image is low contrast but readable.

Final note
Do not auto-release this packet until the insurance card is attached. If the card is received before the appointment, update the status field and keep the original triage note in the record.
